Full job description

Full Stack Software Engineer

Idea Evolver is seeking an experienced full stack software engineer to join our talented Software as a Medical Device (SaMD) team working to build first-of-its-kind medical software. You will work with Vue/React on the front end as well as Golang on the backend to create innovative software on our Google Cloud Platform.

Details and Qualifications

- Proven ability to meet deadlines and deliver solutions quickly at a high quality
- Experience developing websites and web applications leveraging popular open source CRMs
- Advanced understanding of implementing responsive, highly performant front-end interfaces for the web
- Experience with Google Cloud preferred
- Docker/Kubernetes experience
- Advanced understanding of one or more of the following: Vue, React, Golang
- Experience with automated testing frameworks
- Must be able to work as part of a development project from beginning to end

Company Overview

Idea Evolver is an independent Health Marketing, Product Development and FDA Compliance company specializing in Audience Market Research, Software as a Medical Device (SaMD) and Digital Strategy. We improve health outcomes through targeted content and application design.

Notable clients include AstraZeneca, Bluebird Bio, United Therapeutics, Novartis and Horizon Pharmaceuticals.

Compensation and Benefits

- Very competitive salary
- Excellent health and dental
- 401k
- Generous PTO policy
- Fully remote work

IaMK71ARwN

If you require alternative methods of application or screening, you must approach the employer directly to request this as Indeed is not responsible for the employer's application process.
